

TG011

Disposable, Sterile Surgical Gown

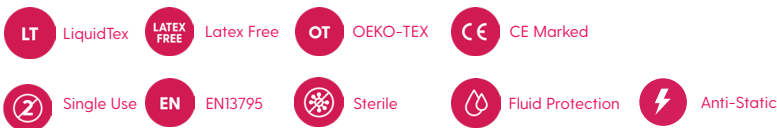

Overview

Designed for its comfort, breathability and ease of movement the sterile surgical gown is manufactured from a hydrophobic, soft touch material with good resistance to liquid penetration. It comes in a sterile pack, wrapped with two hand towels and is latex free. It exceeds the requirements of EN13795 -1:2019. Seams are ultrasonically welded with high levels of accuracy for strength.

Features

- › Manufactured from soft SMSS comfort fabric, with fluid protection
- › Ultrasonic welded seams
- › Knitted cuffs
- › Supplied with two hand towels in a sterile wrap

Materials

LiquidTex

This is a four-layer SMMS fabric made of an inner and outer layer of spunbonded non-woven fabric sandwiched between these are two layers of melt-blown non-woven. This fabric provides an excellent bacterial and fluid repellent barrier, whilst being cool and breathable to wear.

Quality Assurance

Our Disposable, Sterile Surgical Gown is manufactured in accordance with the EN ISO 13485 standard. This ensures that we deliver products and services that consistently meet customer requirements, guaranteeing full customer satisfaction.

Product certified to EN 13795.

All our gowns have a CE marked label and comply with the requirements of the medical Device Directive 93/42/EEC.

Our Standard Surgical Gowns are manufactured with Fabrics that are manufactured under OekoTex and ISO 9001 quality guidelines.

Intended Use

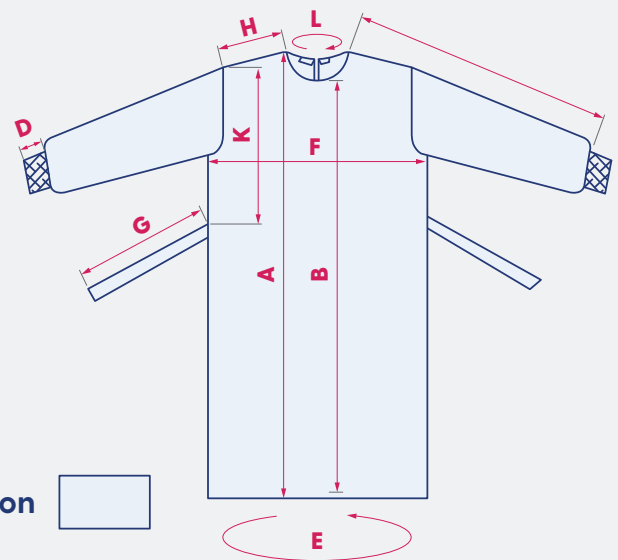

The Disposable, sterile surgical gown is intended to be used to protect healthcare professional during the surgical procedure and to provide absolute comfort to the user. It is mostly intended for the surgeons, scrub nurses, and other surgical staff. With its hydrophobic property the standard surgical gown is designed to withstand liquid from one side to the other and ease the movement of the surgeon during operation.

They are mostly used in standard and short duration surgical procedures.
