

## TG012

### Impervious High Performance Sterile Gown

#### Overview

Designed for its comfort, breathability and ease of movement the Impervious High Performance sterile gown is manufactured from a hydrophobic, soft touch material laminated with a PE coating and is the ultimate gown to prevent any fluid ingress. It comes in a sterile pack, wrapped with two hand towels and is latex free. It exceeds the requirements of EN13795 -1:2019. Seams are ultrasonically welded with high levels of accuracy for strength.

#### Materials

##### BarrierTex

SMMS with PE coating this is the Ultimate protection. The coating is impervious but allows a degree of breathability where the highest levels of fluid protection are required.

#### Quality Assurance

Our Impervious high performance Sterile gown is manufactured in accordance with the EN ISO 13485 standard. This ensures that we deliver products and services that consistently meet customer requirements, guaranteeing full customer satisfaction.

Product certified to EN 13795.

All our gowns have a CE marked label and comply with the requirements of the medical Device Directive 93/42/EEC.

Our Standard Surgical Gowns are manufactured with Fabrics that are manufactured under Oekotex and ISO 9001 quality guidelines.

### Intended Use

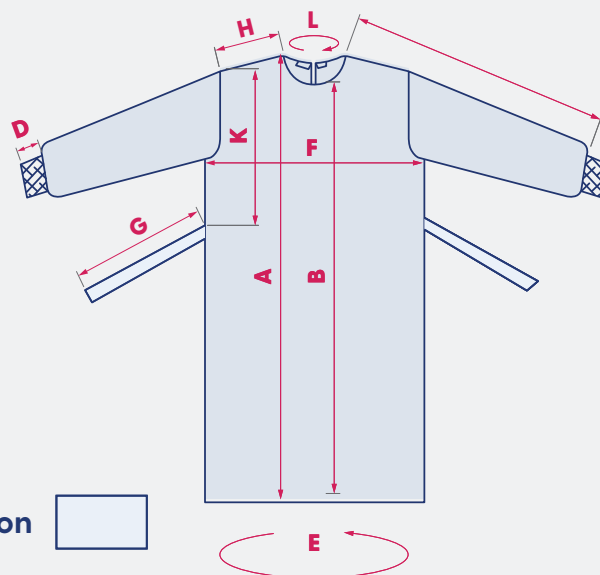

The Impervious High Performance Sterile Gown, is intended to be used to protect healthcare professionals during longer procedures requiring higher levels of fluid protection. It is mostly intended for the surgeons, scrub nurses and other surgical staff. With its four layer laminated finish it is designed to be completely impermeable to blood and fluid penetration, during procedures, whilst providing ease of movement and breathability.

**Mostly used in major procedures the Impervious High Performance Sterile Gown offers the highest levels of fluid protection.**
