

TGO20

Non-Sterile Patient Gown

Overview

Manufactured from a dark blue textured fabric for modesty, the Patient Gown is made from 75% recycled spunbonded fabric which is soft and breathable. It comes as a generous easy to adjust one size garment.

Features

- › Darker blue fabric for modesty
- › Velcro neck fastener and waist ties
- › Manufactured from a mix of 75% recycled SS spunbonded and SMS spunbonded meltblown fabric

Materials

EcoTex

Manufactured from a mix of 75% Recycled SS spunbonded and SMS spunbonded melt-blown fabric. It is soft and comfortable to wear and is embossed with a texture to provide no-see through modesty properties. It is a favourite for patient gowns, scrubs and warming jackets.

Quality Assurance

Our Non-Sterile Patient Gowns is manufactured in accordance with the EN ISO 13485 standard. This ensures that we deliver products and services that consistently meet customer requirements, guaranteeing full customer satisfaction.

Product certified to EN 13795.

All our gowns have a CE marked label and comply with the requirements of the medical Device Directive 93/42/EEC.

Our Standard Surgical Gowns are manufactured with Fabrics that are manufactured under Oekotex and ISO 9001 quality guidelines.

Intended Use

This patient gown is intended to be used to protect patients from cross infection and to provide modesty. This gown with its soft touch and hydrophobic properties is design to withstand liquid penetration and ease the movement of the user.

Mostly used as a patient modesty gown, to protect from cross infection and liquids.
